

CDG-PP-2023-D

F, 15 years, Axial hypotonia, mild-moderate ID, Abnormalities in coagulation.

Abnormal pattern
Suggestive for CDG-I
Exclude galactosemia, fructosaemia, alcohol

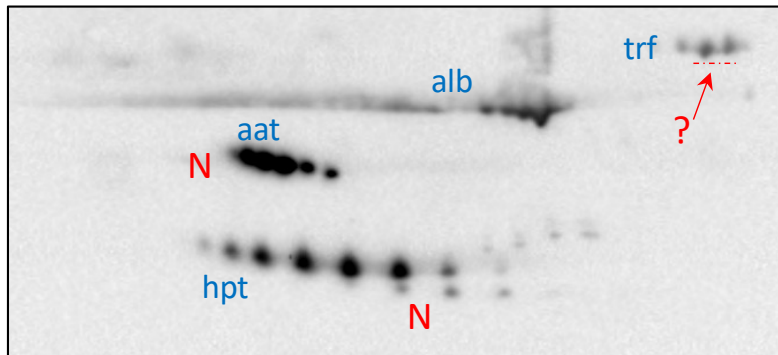

CDG-PP-2023-E

F, 3 years, seizure, axial hypotonia.

Normal pattern
Not suggestive for CDG

CDG-PP-2023-F

M, 4 years, Global developmental delay, autism spectrum disorder, bruising susceptibility.

Normal pattern
Not suggestive for CDG
Possible Trf variant. Although clinically not evocative, MAN1B1-CDG cannot be formally excluded.
